

Remarks

The Examiner has rejected claims 1 and 2 under 35 USC 102(e) as being anticipated by US Patent 6,656,038 to Persson. However, the Examiner has indicated that claims 3 - 9 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Accordingly, claim 1 has been amended to include the subject matter of claim 3 and claim 3 has now been cancelled. Claims 4, 5 and 6 have also been amended to depend from claim 1 because claim 3 has been cancelled.

In conclusion, it is believed that this application is in condition for allowance, and such allowance is respectfully requested.

Should the Examiner believe that a telephonic conference would be useful in furthering the present application toward allowance, the undersigned attorney would welcome such a call.
